

Dear DIS TDD Participants,

It is with great pleasure that our school offers you the opportunity to meet up and join us on a two-day debate over the topic of nuclear energy. It is thanks to the commitment, enthusiasm and serious work of our students that this will be made possible. I congratulate all of you who decided to take part to this event for showing your passion and dedication, two of the pillars of our education at DIS, together with the IB Learner Profile. I hope this will turn into a chance to challenge your thoughts, explore different points of view, and propose meaningful resolutions. My staff and our students will work with you to make this experience as pleasant and fruitful as possible.

In faith,

Alberto Damiano, Ph.D.
Director of Deledda International School
